

PHYSICAL SCIENTIST

Kimberly Harper
U. S. Department of Energy's Office of Science

*“Don’t pressure yourself
to quickly choose one
field over another. Take
classes. Talk to people in
different careers.
Explore your interests
through different
internships and
opportunities to learn.”*

—Kimberly Harper

#ShelsSTEM

Kimberly Harper is a Physical Scientist with the U. S. Department of Energy's Office of Science. She works with a team of scientists and engineers to evaluate projects at the Pacific Northwest National Laboratory (PNNL). She helps ensure the research at the facility is safe and appropriate for the resources available.

FUN FACT: To earn extra money during college, Kimberly worked as a car saleswoman.
