

# EPIDEMIOLOGIST

**Lisa Jackson**  
**Kaiser Permanente Washington**

*"I collaborate with national and international research teams to design studies, share findings, and advise the public... All of this is a team effort."*

—Lisa Jackson

**#ShelsSTEM**

As Senior Investigator at Kaiser Permanente Washington Health Research Institute, Lisa Jackson directs a program of vaccine and infectious disease research. She leads a clinical trials team to evaluate vaccines, helping to ensure they are safe and effective.

**FUN FACT:** Early in her career, Lisa was a “disease detective” at the Epidemic Intelligence Service program at the CDC.
