

SECURITY ENGINEER

JOYCE ELAURIA
OKTA

"You don't have to be an expert in order to do STEM! As long as you want to do it, and you put your time and effort into it, that's all that should matter. Your "natural aptitude" for it is not your true aptitude."

—Joyce Elauria

#ShellsSTEM

As a Security Engineer for Okta, Joyce Elauria monitors software for security vulnerabilities and corrects problems when they're found. Her work helps to keep our digital environments safe and secure.

FUN FACT: Joyce's interest in STEM was sparked by her mother, a biology professor, and by the TV show *Mythbusters*.
